3145 Broadway  
Kansas City, MO 64111

Dear Sir/Ma'am:

Subject: Versa Flex SL/75 (Pts A&B)

The Food Safety and Inspection Service (FSIS), Facilities, Equipment and Sanitation Division (FESD) does not review or issue letters of approval for your product.

A letter of approval or acceptance is not required to be furnished to the FSIS inspector for the use of your product in federally inspected meat and poultry establishments. However, they must meet the following requirements prior to their use in federally inspected meat or poultry establishments:

1. Your product must be installed and maintained in a sanitary manner acceptable to the FSIS inspector in charge,
2. The FSIS inspector in charge must be notified prior to installation of the your product as to the time and place your product will be installed,
3. The finished outer surface material of your product must not contain any known carcinogen, mutagen or teratogen classified as hazardous substances; heavy metals or other toxic substances; antimicrobials; pesticides or substances with pesticidal characteristics.

Please be advised that the improper installation of your product which results in the contamination of meat and/or poultry products will result in appropriate action by FSIS. Furthermore, this letter does not imply compliance with Department of Labor Occupational Safety and Health Standards.

Sincerely,

*Karen M. Wesson*

Karen M. Wesson, DVM  
Director  
Facilities, Equipment and  
Sanitation Division
