Rehabilitation of Pond Liner & Water Feature, Chinese Gardens

Portland Classical Chinese Garden, Portland, Oregon

AmeriCoatings LLC, Brush Prairie, Washington

Lake Zither needed to be repaired in time for a March 14, 2004 reopening. The Garden's family of fish were returned from their temporary home at Sunset Koi in Aloha, HI. This whole process was very stressful on the animals, as well as on the staff of the Garden. The project started in the last week of February and had to be completed within two weeks so that the animals and vegetation could be returned.
