Remove contact lenses at once. Flush eyes with water for at least 15 minutes while holding eyelids apart. Seek medical attention if irritation develops.

Skin Contact:

Remove contaminated clothing and wash exposed area with soap and water.

Inhalation:

Remove to fresh air if effects occur. If not breathing, give artificial respiration. **Get immediate medical attention.**

Ingestion:

Keep person warm and quiet and get medical attention. Do not induce vomiting.

Most Important symptoms/effects, acute and delayed:

Aggravated Medical Conditions:

Overexposure to vapor, dust, or mist may aggravate existing respiratory conditions, such as asthma, bronchitis, and inflammatory or fibrotic respiratory disease.

Other Health Effects:

Unknown

Indication of immediate medical attention and special treatment needed, if necessary:

Note to Physician: Treatment based on judgment of the physician in response to reactions of the patient. Contact a poison control center for additional treatment information.

SECTION 5 – FIRE FIGHTING MEASURES

Suitable extinguishing media:

Use water spray, dry chemical, foam, or carbon dioxide. Water or foam may cause frothing. Use water to cool fire-exposed containers. If a leak or spill has not ignited, use water spray to disperse the vapors and to provide protection for persons attempting to stop the leak.

Specific hazards arising from the chemical:

Hazardous combustion products may include intense heat, carbon monoxide, carbon dioxide, dense smoke and irritating vapors.

Special protective actions for fire-fighters:

Use a positive pressure self-contained breathing apparatus.

SECTION 6 – ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures:

Ventilate the area. Avoid breathing vapor. Use self-contained breathing apparatus or supplied air for large spills or confined areas.

Methods and materials for containment and clean up:

Contain spill if possible. Wipe up or absorb on suitable material and pick up with shovels. Prevent entry into sewers and waterways. Dispose of in accordance with federal, state, and local regulations.

SECTION 7 – HANDLING AND STORAGE

Precautions for safe handling:

Ground all transfer equipment. Take precautionary measures against static discharge. Handle as an industrial chemical.

Conditions for safe storage, including any incompatibilities:

Keep container tightly closed when not in use. Practice good caution and personal cleanliness to avoid skin and eye contact. Hold bulk storage under nitrogen blanket. Store in a cool, dry place with adequate ventilation. Keep away from open flames and high temperatures.
